GEOTECHNICAL ENGINEER

Our client, an Ottawa, Ontario based consulting engineering firm that provides specialist services in geotechnical, hydrogeological, and environmental engineering to contractors, builders, municipalities, governments, engineering consultants, developers, architects, conservation authorities, and homeowners throughout Eastern Ontario, has an immediate strategic opening for a Junior, Intermediate and/or Senior Geotechnical Engineer.

NLC Recruiting and Consulting has represented this client for many years and represent them proudly. For information regarding this role, please contact NLC directly at 905-554-3615 or nchapman@nlcrecruiting.ca

Role & Responsibilities:

The successful candidate will work under the mentorship of our senior staff and will be exposed to a wide variety of technical challenges. Your responsibilities will include:

- Developing and implementing geotechnical field programs.
- Assist with the analysis and preparation of geotechnical reports for foundation design for large and small buildings, transportation projects, bridges, embankments on soft ground, roadway pavements, slopes, buried utilities, tunnels, etc.
- Project organization and administration.
- Proposal preparation.
- Oversee and assist technical staff in the completion of project specific field and laboratory tasks.
- Assist with various field investigations, and inspection and testing services on a wide variety of projects.

Qualifications & Experience:

- University post graduate degree in geotechnical (civil) or geological engineering.
- The preferred candidate will be self-motivated, energetic and well organized, with a proven ability to multi-task in a fast-paced environment.
- Proven project management skills.
- Effective team player with good interpersonal skills.
- Excellent verbal and written communications skills in English.
- Registered or eligible to register as a professional Engineer in Ontario.
